

Protocols for Testing on Campus

Any student who is experiencing symptoms related to COVID-19 should call the Office of Student Life (260-359-4299) or email covid19@huntington.edu to notify the University. See the attached COVID-19 self-monitoring checklist for a list of symptoms.

In accordance with the University's COVID-19 expectations, any student experiencing symptoms should not report to class or leave his/her campus housing location unnecessarily. The student should report to the on-campus testing location, found in the basement of Wright Hall (enter the lower level door facing the Habecker Dining Commons, marked for Campus Police) to have a rapid test administered. Follow directional signs once in the building for the testing room location. Prior to testing, a release of liability statement will need to be signed by the student.

Testing will be available on weekdays from 2:30-3:30 pm. Any student that tests positive for COVID-19 from administration of a rapid test will enter the University's isolation protocol. Contact tracing will also be completed to determine any close contacts for quarantining purposes. Students may elect to pursue a PCR test at a local state testing site to confirm results. Options close to the Huntington University campus are listed below. Even if electing to pursue a PCR test, the student will remain in isolation protocol until otherwise directed by a member of the HU COVID-19 Team. A student will be permitted to leave isolation protocol if a PCR test indicates a negative result or the student completes the required isolation protocol.*

- Cardinal Health testing location (located near Starbucks/Walmart)
<https://scheduling.coronavirus.in.gov/>
- Indiana State testing locations by county
www.coronavirus.in.gov/2524.htm

Any student that tests positive MUST notify the University. Notification should be made by calling the Office of Student Life (260-359-4299) or emailing covid19@huntington.edu. Unless University personnel directs otherwise, rapid tests will be reserved for students, faculty, and staff exhibiting symptoms consistent with COVID-19.

**CDC guidelines and Huntington University protocols for completing isolation include: isolating from others for 10 days after a positive test result or onset of symptoms, and remaining fever-free without the aid of fever reducing medication for at least the last 24 hours of the isolation period, and improvement of any symptoms.*

HUNTINGTON

— U N I V E R S I T Y —

COVID-19 Self-Monitoring Checklist

- Do you have a fever (temperature over 100.3F) without taking any fever reducing medications?*
- Do you have a new loss of smell or taste?
- Do you have a cough?
- Do you have fatigue, muscle pain, or body aches?
- Do you have a headache?
- Do you have a sore throat?
- Do you have shortness of breath or difficulty breathing?
- Do you have chills?
- Do you have congestion or runny nose?
- Do you have nausea or vomiting?
- Do you have diarrhea?
- Have you, or anyone you have been in close contact with, been diagnosed with COVID-19 or been placed in quarantine for possible contact with COVID-19?
- Have you been asked to isolate or quarantine by a medical professional or a local public health official?

*Students may receive a temperature check in the following locations:

- Huntington, Indiana: residence halls (see directors)
- Fort Wayne, Indiana: each student will have a thermometer due to clinicals and location within a medical building
- Peoria, Arizona: front desk at main entrance

***Symptoms of COVID-19 may appear 2-14 days after exposure to the virus. The questions included in the checklist above reflect symptoms, as outlined by the CDC, for COVID-19.*
