

## THANK YOU FOR PLANNING YOUR VISIT TO HUNTINGTON UNIVERSITY.

We are excited to meet you, show you our campus, and, most important, answer your questions. Our priority is keeping you and our campus community safe. Therefore, we are currently following safety precautions for our staff and campus guests.

---

### PRIOR TO YOUR VISIT

- Assess your health and reschedule your visit if you exhibited fever, chills, cough, muscle pains, or difficulty breathing in the past two weeks
- If you have had contact with someone who has tested positive or if you have tested positive 14 or fewer days before your visit, please reschedule your visit
- Limit your party to three individuals total

### AT THE START OF YOUR VISIT

- Enter through the door on the far right when you arrive at the Welcome Center/Merillat Centre for the Arts – you can use your elbow to activate the automatic door switch

### DURING YOUR VISIT

- Masks are required
- You may bring a mask of your own, but we will also provide one for you (and you can keep it!)
- Resist the urge to shake hands (it's hard for us, too!)
- Allow us to open any doors for you
- Wash your hands or sanitize regularly – we'll be happy to point you in the right direction (it's everywhere)
- Keep appropriate social distance from anyone outside your group; we are intentionally spacing meeting rooms for your safety
